PART 01

CORPORATE OVERVIEW

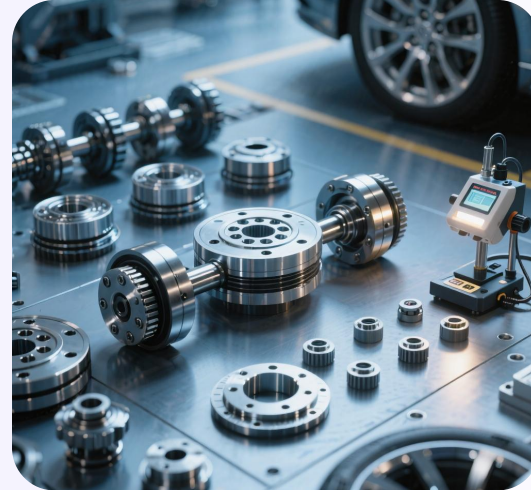

COMPANY PROFILE

JUNCHI

COMPANY ESTABLISHMENT & BACKGROUND

Yiwu Jinch Auto Parts Co., Ltd. is an enterprise dedicated to the research & development, manufacturing, and sales of auto parts. With ten years of industry experience, we serve the global market.

CORE BUSINESS & PRODUCTS

The company specializes in automotive components, including oil filters, diesel filters, air filters, and cabin air filters. Our products are ISO certified, meeting customer demands with high quality and supplying to well-known automakers.

CORPORATE VALUES & CULTURE

We emphasize product quality and service while caring for employee welfare and customer relationships. We regularly organize team activities, provide training opportunities, foster a harmonious working environment, and enhance employee satisfaction.

SOCIAL RESPONSIBILITY & CONTRIBUTION

We actively participate in community welfare initiatives, such as donating educational facilities and supporting environmental projects, practicing corporate social responsibility and earning a positive reputation.

DEVELOPMENT HISTORY

JUNCHI

COMPANY ESTABLISHMENT & BACKGROUND

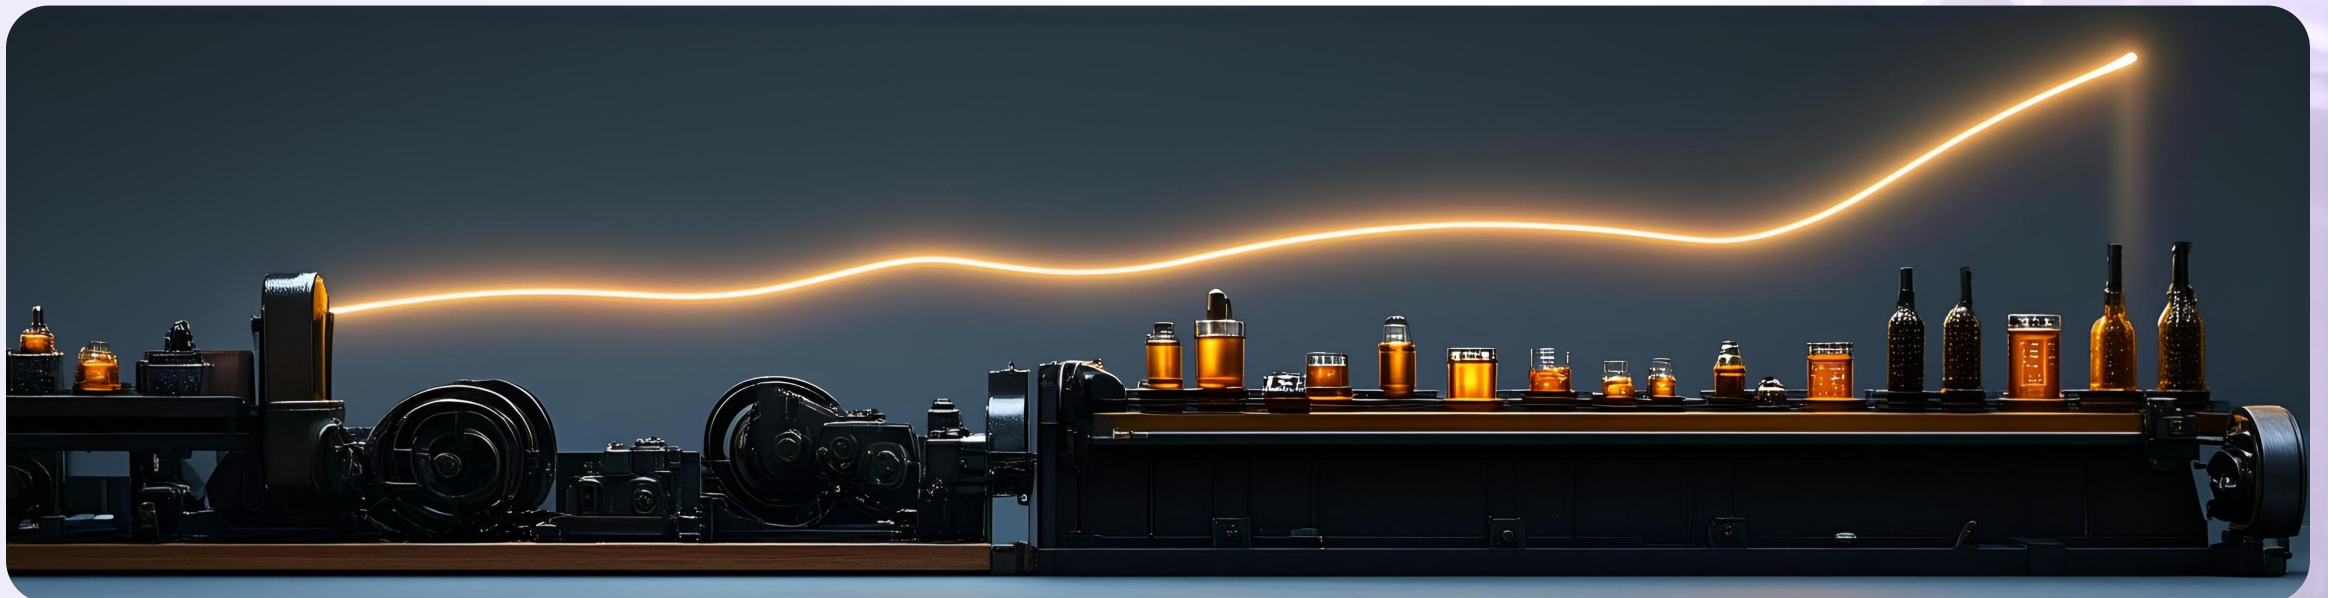

Yiwu Jinch Auto Parts Co., Ltd. is an enterprise dedicated to the research & development, manufacturing, and sales of auto parts. With ten years of industry experience, we serve the global market.

TECHNOLOGY UPGRADE & PRODUCT INNOVATION

In 2015, we introduced automated production lines and developed new energy vehicle components, following an innovation trajectory similar to Delphi's to enhance product competitiveness.

MARKET EXPANSION & BRAND BUILDING

In 2020, we expanded into overseas markets, obtained ISO certification, and adopted Michelin-inspired branding strategies to strengthen our global influence.

JUNCHI

PART 02

CORE BUSINESS & PRODUCTS

ENGINE OIL FILTER

JUNCHI

Function & Purpose

Oil filters effectively remove impurities and particles from engine oil, protecting the engine from wear and extending its service life.

For example, Bosch filters are widely used in BMW models.

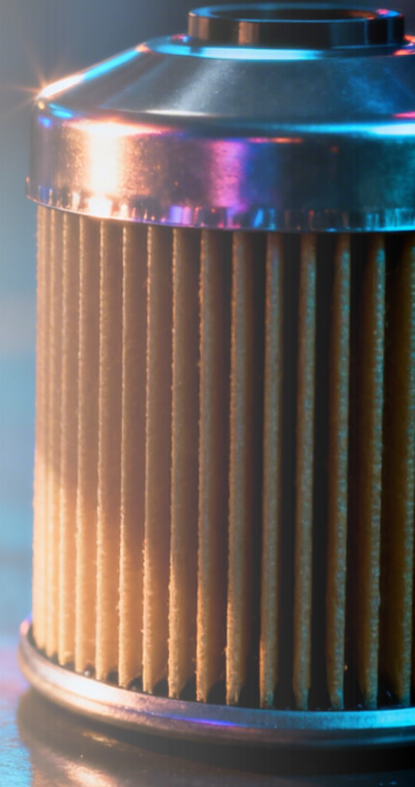

Types & Classification

Common types include spin-on and cartridge filters. MANN-FILTER is highly favored in the automotive aftermarket for its high performance and reliability.

Advantages & Features

Featuring high-efficiency filtration and durability, they reduce maintenance frequency and lower costs. MAHLE filters, for instance, are commonly used in Volkswagen vehicle maintenance.

GASOLINE FUEL FILTER

JUNCHI

Function & Purpose

Oil filters effectively remove impurities and particles from engine oil, protecting the engine from wear and extending its service life. For example, Bosch filters are widely used in BMW models.

Types & Design

Common types include spin-on and cartridge styles, featuring compact designs for quick installation and replacement. Renowned brands such as Mann+Hummel provide reliable products.

Advantages & Benefits

High-efficiency filtration reduces engine failures, lowers maintenance costs, improves fuel economy, and real-world cases demonstrate significant extension of engine overhaul intervals.

AIR FILTER

JUNCHI

Types & Materials

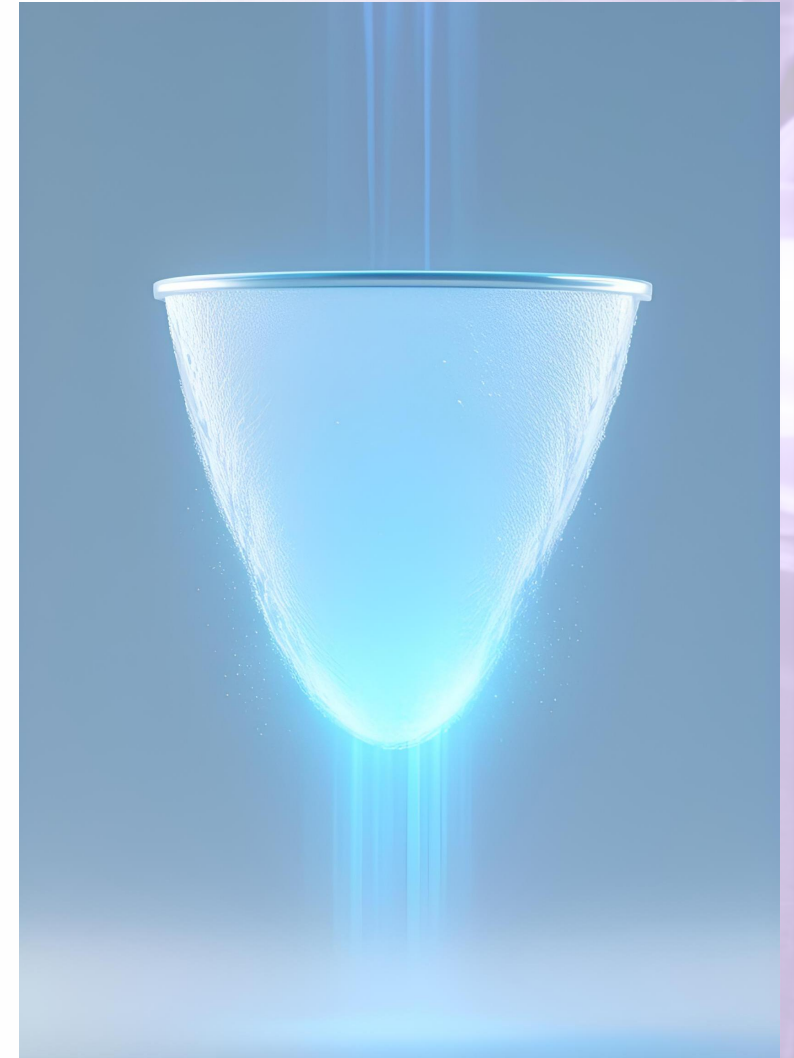

Air filters utilize paper or foam filter elements, such as Bosch products commonly found in Volkswagen vehicles, effectively filtering dust and impurities to protect the engine.

High-Efficiency Filtration Performance

Featuring high dust-holding capacity and low-resistance design, similar to Mahle filters used in Toyota models, enhancing fuel economy and engine longevity.

Application Scenarios

Widely applied in passenger cars, trucks, and motorcycles, such as Delphi filters equipped as standard in Ford vehicles, ensuring reliability across diverse operating environments.

CABIN AIR FILTER

JUNCHI

High-Efficiency Filtration Technology

Utilizes HEPA (High-Efficiency Particulate Air) filter media to effectively intercept PM2.5 particles and pollen, improving in-cabin air quality. Widely used in models such as the Toyota Camry.

Multi-Vehicle Compatibility Design

Compatible with mainstream brands including Toyota, Honda, and Volkswagen, ensuring quick installation and perfect fitment to meet diverse vehicle owner needs.

Eco-Friendly Material Application

Manufactured using biodegradable materials to reduce environmental pollution. Complies with EU RoHS (Restriction of Hazardous Substances) standards, promoting green mobility.

JUNCHI

PART 03

INTERNATIONAL OPERATIONS

European Market

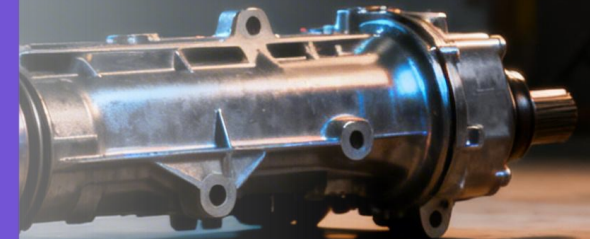

Jinchi Automotive Parts has established a strong presence in the European market for many years. Products are CE certified and partnered with premium brands such as BMW and Mercedes-Benz, with annual export value reaching 80 million RMB. For instance, the company won an Innovation Award at the Geneva International Motor Show.

North American Market

In the North American market, Jinchi products are renowned for their high quality. They are DOT certified in the United States and partnered with Ford, Chrysler, and others, achieving 25% year-over-year sales growth. For example, participation in the Detroit North American International Auto Show garnered significant attention.

Asian and African Markets

The Asian market focuses on the Middle East and North Africa, with products selling well in countries such as Saudi Arabia, UAE, Qatar, Egypt, and Algeria. Partnering with local Toyota and Honda factories, annual exports exceed 100,000 units. For instance, new clients were signed at the Shanghai International Auto Parts Show.

PRODUCTION WORKSHOP

JUNCHI

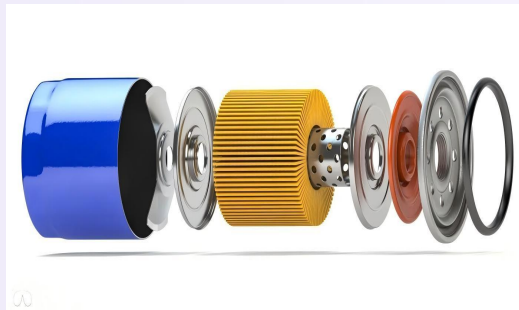

Oil Filter

Custom private label manufacturing available according to customer requirements

Air Filter

Premium products crafted from premium materials

Filter Internal Structure

Precision Multi-Layer Composite Structure Ensuring High-Efficiency Filtration

JUNCHI

PART 04

COMPETITIVE ADVANTAGES

PRODUCT QUALITY ASSURANCE

JUNCHI

Strict Quality Control System

The company implements Total Quality Management (TQM) and maintains ISO 9001 certification, ensuring every production process adheres to high standards, comparable to Toyota's Lean Manufacturing model.

International Certification Compliance

Products are certified to CE, RoHS, and other international standards, ensuring safety and environmental protection. As reliable as Bosch automotive components, meeting global market demands.

Comprehensive Product Testing Protocol

Every batch undergoes durability and performance testing under simulated real-world driving conditions, following stringent testing standards similar to Delphi's, ensuring zero-defect delivery.

24/7 Customer Support Hotline

Yiwu Jinchí provides a 24/7 customer service hotline to ensure rapid response to customer inquiries. Drawing on Toyota's customer service system, we enhance service efficiency and customer satisfaction.

Personalized Parts Customization Service

The company customizes automotive parts according to customer requirements, providing exclusive solutions. Referencing cases such as Bosch's custom components for automakers, we enhance cooperation flexibility.

OEM MANUFACTURING PARTNERSHIP

Yiwu Jinchí partners with Geely Auto to provide high-quality OEM manufacturing, ensuring component reliability and supply stability while enhancing brand trust.

GLOBAL DISTRIBUTION NETWORK

The company establishes online channels including international internet platforms, covering both domestic and global markets to enhance product sales reach and customer accessibility.

CUSTOMIZED SERVICE PARTNERSHIP

Customizes specialized components for clients such as BYD, meeting personalized requirements to improve partnership efficiency and customer satisfaction.
